ENSYSTEX™

DIRECTIONS FOR USE

SETTINGS	PESTS	TREATMENT RATE	CRITICAL COMMENTS
Houses, flats, factories, shops, warehouses, restaurants, hospitals, hotels, kitchens	Cockroaches (<i>Periplaneta americana</i>)	10 - 15 mL / 1 L water	Apply not exceeding the point of run-off. Apply to skirting boards, floors and carpets, cupboards, behind sinks, stoves and pipes. Pay particular attention to cracks and crevices. Also treat exposed areas where insects are seen, and known hiding places.
	Mosquitoes (<i>Aedes aegypti</i>)	10 - 15 mL / 1 L water	Apply to all exposed surfaces where mosquitoes may rest.

MIXING

Add the required quantity of DELTATHOR PLUS to water in the spray tank and mix thoroughly. Maintain agitation during both mixing and application.

APPLICATION DETAILS

Application rate: 10 mL of diluted solution per m² and frequency of application: 1 month.

Urban Pest Management and Vector Control: DELTATHOR PLUS Insecticide is a knockdown and residual pesticide. Pests are controlled by direct contact with the spray and also by the residual action as they come into contact with treated surfaces.

APPLICATION

DELTATHOR PLUS can be applied by a variety of application techniques, such as power sprayers, hand-held pump sprayers or backpack sprayers.

PRECAUTIONS

DO NOT spray directly on humans, pets or animals. Avoid contact with food, food utensils or preparation surfaces. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. If SWALLOWED, ON SKIN OR INHALED, CALL A POISON CENTRE/DROPOFF if you feel unwell. Avoid release to the environment.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND THE ENVIRONMENT

Dangerous to fish and aquatic organisms. Do not contaminate dams, rivers, streams, waterways or drains with product or the used container. Drift from treated areas may be hazardous to organisms at adjacent aquatic sites. Extreme caution must be used to avoid aquatic contamination. Avoid spraying flowers that attract and harbour bees.

PROTECTION OF PETS AND LIVESTOCK

Before spraying, remove animals and pets from the area to be treated. Do not remove any open food and wash any feeders. Cover or remove fish ponds, etc. before spraying. Do not allow pets or animals to enter until spray has dried.

STORAGE, DISPOSAL AND DISPOSAL OF CONTAINERS

Store in a cool, dry, well-ventilated area away from children, animals, food and feedstuffs. Do not use for prolonged periods in direct sunlight.

Accidental Spill: In case of spillage, absorb, contain and absorb any spilled product with absorbent material such as sand, clay or crushed vermiculite. Allow spillage to dry in accordance with local, regional, national/international regulations.

Disposal: Empty containers should be thoroughly rinsed with water before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. Use of empty containers to local authority landfill in accordance with local/regional/national/international regulations. If recycling is available, return clean containers to recycler or designated collection point. If not recycling, break, crush and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in an area specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

Do not bury waste or surplus product. Dispose of diluted surplus product or undiluted waste by dilution and use according to Directions for Use table. Do not re-use empty container.

Known incompatibilities: Acids, bases oxidising agents.

Signs and Symptoms of Poisoning:

Skin contact: This product may cause temporary skin numbness. Product may be irritating but is unlikely to cause anything more than mild transient discomfort. **Eye Contact:** Product may be irritating to eyes but is unlikely to cause anything more than mild transient discomfort.

SAFETY DIRECTIONS

Avoid contact with eyes and skin. Ventilation: This product should only be used in a well-ventilated area. If natural ventilation is inadequate, use of a fan is suggested. Eye Protection: Protective glasses or goggles should be worn when this product is being used. Skin Protection: Prevent skin contact by wearing protective gloves, clothes and water-resistant footwear. Make sure that all skin areas are covered. Ingestion: This product is unlikely to cause irritation but may cause gastric upset if swallowed. Take necessary precaution not to ingest product. Protective Material Types: We suggest that protective clothing be made from the following materials: rubber, PVC, Viton. Respirator: Usually, no respirator is necessary when using this product.

After each day use wash gloves and contaminated clothing. Wash hands after use.

FIRST AID

If poisoning occurs, contact a doctor or National Poison Control and Information Service, or the nearest General Hospital - Emergency Nos: (02) 8524 1078 / 8521-8450 Loc 2311 if you feel that you may have been poisoned, irritated or irritated by this product. Have this SDS with you when you call.

Inhalation: First aid is generally not required. If in doubt, contact the National Poison Control and Information Service or a doctor at once.

Skin Contact: Irritation is unlikely. However, if irritation occurs, flush with lukewarm, gently flowing water for 5 minutes or until skin is clean. Remove contaminated clothing.

Eye Contact: No effects expected if this product comes in contact with eyes. Flush with lukewarm, gently flowing water for 5 minutes or until product is removed while holding the eyelids open. Contact with medical attention becomes painful or lasts more than a few minutes. Flush the contaminated eye with lukewarm water for 20 minutes or until the product is removed. Take special care if exposed person is wearing contact lenses. Flush with water for 20 minutes or until the product is removed.

Ingestion: If swallowed, do NOT induce vomiting. Wash mouth with water and contact the National Poison Control and Information Service or call a doctor.

NOTE TO PHYSICIAN: In case of severe allergic effect detected due to product use treat symptomatically and provide necessary supportive care.
